

June 20, 2015.

Artistic Woodturners of Northwest Florida

President and vice president and secretary were absent for this meeting. According to all third hand accounts, the meeting was well attended and enjoyed by those who did. Leland Leonard was the guest demonstrator and shared his method for creating peppermills. Representative photographs follow.

Goal is this peppermill

I buy all my mechanisms online here

Steady rest makes deep central boring more secure

Decapitate the blank and shape the head first

Negative rake scraping of the end grain

surgically shaping the head piece

Beginning the shape the body of the peppermill

Final form taking shape

SHOW AND TELL

Earl's Longworth chuck, homemade

John Byl's specialty stools
